How we choose the number?

We use our proprietary Name Vibrations services to find Lucky & Strong Vehicle numbers. How we do it:

1. **Firstly**, we find Lucky number, Favorable number and unfavorable number using the complete date of birth (date, time and place of birth) of the individual.
2. **Secondly**, We find the total of the alpha numeric value involved in the number, in our case we evaluated for GJ 01 KW (Chaldean 4/ Pythagorean 7) and GJ 01 KV (Chaldean 4/ Pythagorean 6)
3. **Third step**: We find number (7 here) which when added to the total of the Alpha Numeric value (5/3) obtained in the second step either results in Lucky number or Favorable number (3/1).
4. **Fourth Step**: We ensure that only Lucky & Favorable numbers are chosen while selecting the numeric value of the car number. In our case they are 1,3,7, and 9.
5. **Fifth Step**: We evaluate the number vibrations and finalize the number which has the highest vibrations.
6. **Finally**: We arrive at the number which constitutes only the either Lucky Or Favorable numeric values (e.g. 1234, 1234 etc.), either Lucky or Favorable total GJ 01 KV 1234 (total Chaldean 3 / Pythagorean 1) and has the highest vibrations 489.50 (out of max 512)

Proper attention is given to the Numerological value of either Birth Number or Destiny number or both of the individual and the number is selected which is either favorable to Birth Number or Destiny number or both. After the age of 35 Destiny number plays an important role.

Note: Most of the Astrologer or Numerologist either use Chaldean (the most popular and widely used) System or Pythagorean (second most popular) System of numerology.

However, apart from our Name Vibrations system we evaluate the vehicle number on the basis of both the popular systems (Chaldean & Pythagorean) for fine tuning.
